

DPE 115

OVERVIEW

The DPE 115 is a full range two-way speaker system utilizing a 15" of 3" voice coil heavy duty cast frame woofer and an RX 33 titanium compression driver for the highs. The driver circuit contains Sound Guard III compression driver protection network. The passive crossover design gives the best system response for the CD horn and woofer. A 1-3/8" stand adapter is installed and 2xNL4 type connectors are connected in parallel for daisy chaining.
